INDEX TO SUBJECTS

A

Acetylcholine receptors, distribution and extrajunctional density in rat diaphragm after denervation correlated with acetylcholine sensitivity, 248
Active state decay, effect of shortening on time-course of, 202
Adaptation in skate photoreceptors, 698
Adenosine monophosphate, cyclic, in nervous system of *Aplysia californica*, effect of serotonin and dopamine, 570
— monophosphate, cyclic, in nervous system of *Aplysia californica*, increased synthesis in response to synaptic stimulation, 558
Alanine efflux across serosal border of turtle intestine, 720
Ampullae of Lorenzini of skate, *Raja*, mode of operation, 534
Aplysia abdominal ganglion, active transport of chloride by giant neuron of, 499
— abdominal ganglion, active transport of potassium by giant neuron of, 519
— *californica*, biosynthesis of egg-laying hormone in bag cell neurons of, 102
— *californica* nervous system, cyclic adenosine monophosphate in, effect of serotonin and dopamine, 570
— *californica* nervous system, cyclic adenosine monophosphate in, increased synthesis in response to synaptic stimulation, 558
Axonal enzymes, transport of in surviving segments of frog sciatic nerve, 388
Axons, lobster, photodynamic alteration of sodium currents in, 367
—, squid, negative conductance caused by entry of sodium and cesium ions into potassium channels of, 588

B

Bag cell neurons of *Aplysia californica*, biosynthesis of egg-laying hormone in, 102
Biosynthesis of egg-laying hormone in bag cell neurons of *Aplysia californica*, 102
Black widow spider venom, effect on lobster neuromuscular junctions, 650
Bladder, toad, osmotic regulation of responsiveness to neurohypophyseal hormones, 665
Blood cells, red. *See* Erythrocytes.

C

Calcium ionophores, effect on fragmented sarcoplasmic reticulum, 735
Calcium-induced potassium transport in human red cells, kinetic and metabolic characteristics, 406
Cell neurons, bag, of *Aplysia californica*, biosynthesis of egg-laying hormone in, 102
Cells, red blood. *See* Erythrocytes.
Cesium and sodium ions, negative conductance caused by entry into potassium channels of squid axons, 588
Chloride, active transport by giant neuron of *Aplysia* abdominal ganglion, 499
— fluxes in isolated dialyzed barnacle muscle fibers, 471
Conductance, negative, caused by entry of sodium and cesium ions into potassium channels of squid axons, 588
— properties of artificial lipidic membranes containing proteolipid from *Electrophorus*, response to cholinergic agents, 454
—, voltage-dependent, effect of surface charge induced in thin lipid membranes by monazomycin on, 285
—, voltage-dependent, induced in thin lipid membranes by monazomycin, 263
Contractile mechanism of frog heart, feedback in, 239
Coupling, excitation-contraction, and electrical properties in skeletal muscle treated with ethylene glycol, 221

D

Decay, active state, effect of shortening on time-course of, 202
Diaphragm, rat, distribution and extrajunctional density of acetylcholine receptors in, after denervation correlated with acetylcholine sensitivity, 248

Discrete waves, light adaptation of, in *Limulus* photoreceptor, 86
Dog red cells, cation transport in, 46

E

Egg-laying hormone in bag cell neurons of *Aplysia californica*, biosynthesis of, 102
Electrophorus proteolipid, conductance properties of artificial lipidic membranes containing, response to cholinergic agents, 454
Embryonic chick hearts, changes in membrane properties during development, 430
Epithelium, tortoise olfactory, and olfactory bulb, response patterns of single neurons in, 166
Erythrocytes, dog, cation transport in, 46
—, human, effects of sodium and potassium on ouabain binding by, 609
—, human, kinetic and metabolic characteristics of calcium-induced potassium transport in, 406
—, human, role of oxidized nicotinamide adenine dinucleotide in fluoride inhibition of active sodium transport in, 337
Ethylene glycol, electrical properties and excitation-contraction coupling in skeletal muscle treated with, 221
Excitability-inducing material channels in lipid bilayer membranes, ion transport through, 72
Excitation-contraction coupling and electrical properties in skeletal muscle treated with ethylene glycol, 221
Eye, *Limulus* lateral, serotonin and inhibition in, 679

F

Feedback in contractile mechanism of frog heart, 239
Fibers, isolated dialyzed barnacle muscle, chloride fluxes in, 471
—, single muscle, voltage clamp experiments on, of *Rana pipiens*, 1
Fibroblasts, active electrical response in, 58
Fluoride inhibition of active sodium transport in human erythrocytes, role of oxidized nicotinamide adenine dinucleotide in, 337

G

Ganglion, *Aplysia* abdominal, active transport of chloride by giant neuron of, 499
Ganglion, *Aplysia* abdominal, active transport of potassium by giant neuron of, 519

H

Heart, frog, feedback in contractile mechanism of, 239
Hearts, chick embryonic, changes in membrane properties during development, 430
Hermissenda, responses of photoreceptors in, 631
Hormone, egg-laying, biosynthesis of, in bag cell neurons of *Aplysia californica*, 102
Hormones, neurohypophyseal, osmotic regulation of toad bladder responsiveness to, 665

I

Inhibition of active sodium transport in human erythrocytes, fluoride, role of oxidized nicotinamide adenine dinucleotide in, 337
— and serotonin in *Limulus* lateral eye, 679
Intestine, turtle, alanine efflux across serosal border of, 720
Ionophores, calcium, effect on fragmented sarcoplasmic reticulum, 735

L

Lateral eye, *Limulus*, serotonin and inhibition in, 679
Light adaptation of discrete waves in *Limulus* photoreceptor, 86
— in isolated rod outer segments, dark ionic flux and effects of, 20
Limulus lateral eye, serotonin and inhibition in, 679
— photoreceptor, light adaptation of discrete waves in, 86
Lipid bilayer membranes, ion transport through excitability-inducing material channels in, 72
— membranes, thin, effect of surface charge on voltage-dependent conductance induced by monazomycin in, 285
— membranes, thin, voltage-dependent conductance induced by monazomycin in, 263
Lobster neuromuscular junctions, effect of black widow spider venom on, 650
Lorenzini ampullae of skate, *Raja*, mode of operation, 534

M

Man, effects of sodium and potassium on ouabain binding by erythrocytes, 609
—, erythrocytes, kinetic and metabolic characteristics of calcium-induced potassium transport in, 406
—, erythrocytes, role of oxidized nicotinamide adenine dinucleotide in fluoride inhibition of active sodium transport in, 337
Membrane properties of chick embryonic hearts, changes in during development, 430
Membranes, artificial lipidic, conductance properties of, containing proteolipid from *Electrophorus*, response to cholinergic agents, 454
—, lipid bilayer, ion transport through excitability-inducing material channels in, 72
—, thin lipid, effect of surface charge on voltage-dependent conductance induced by monazomycin in, 285
—, thin lipid, voltage-dependent conductance induced by monazomycin in, 263
Monazomycin, effect of surface charge on voltage-dependent conductance induced in thin lipid membranes by, 285
—, voltage-dependent conductance induced in thin lipid membranes by, 263
Muscle fibers, isolated dialyzed barnacle, chloride fluxes in, 471
— fibers, single, of *Rana pipiens*, voltage clamp experiments on, 1
—, insect fibrillar flight, nonlinear dynamics of, and phosphate starvation, 307
—, mammalian ventricular, positive and negative inotropic effects of elevated extracellular potassium level, 351
—, skeletal, treated with ethylene glycol, electrical properties and excitation-contraction coupling in, 221

N

Necturus proximal tubule, sodium flux in, under voltage clamp, 181
Nerve, frog sciatic, transport of axonal enzymes in surviving segments of, 388
Neural organization of median ocellus of dragonfly, 121, 148
Neurohypophyseal hormones, osmotic regulation of toad bladder responsiveness to, 665
Neuromuscular junctions, lobster, effect of black widow spider venom on, 650
Neuron, giant, of *Aplysia* abdominal ganglion, active transport of chloride by, 499
—, giant, of *Aplysia* abdominal ganglion, active transport of potassium by, 519
Neurons, bag cell, of *Aplysia californica*, biosynthesis of egg-laying hormone in, 102
—, single, response patterns of, in tortoise olfactory epithelium and olfactory bulb, 166
Nicotinamide adenine dinucleotide, oxidized, role of in fluoride inhibition of active sodium transport in human erythrocytes, 337

O

Ocellus, median, dragonfly, neural organization of, 121, 148
Olfactory bulb and olfactory epithelium, tortoise, response patterns of single neurons in, 166
— epithelium and olfactory bulb, tortoise, response patterns of single neurons in, 166
Ouabain binding by human erythrocytes, effects of sodium and potassium, 609
Oxidized nicotinamide adenine dinucleotide, role of in fluoride inhibition of active sodium transport in human erythrocytes, 337

P

Phosphate starvation and nonlinear dynamics of insect fibrillar flight muscle, 307
Photodynamic alteration of sodium currents in lobster axons, 367
Photoreceptor, *Limulus*, light adaptation of discrete waves in, 86
Photoreceptors in *Hermissenda*, responses of, 631
—, skate, adaptation in, 698
Potassium, active transport by giant neuron of *Aplysia* abdominal ganglion, 519
— channels of squid axons, negative conductance caused by entry of sodium and cesium ions into, 588
—, elevated extracellular level, positive and negative inotropic effects of on mammalian ventricular muscle, 351
— and sodium, effects of on ouabain binding by human erythrocytes, 609
— transport, calcium-induced, kinetic and

metabolic characteristics in human red cells, 406
Proteolipid, *Electrophorus*, conductance properties of artificial lipidic membranes containing, response to cholinergic agents, 454

R

Raja skate, mode of operation of ampullae of Lorenzini, 534
Red blood cells. *See* Erythrocytes.
Response patterns of single neurons in tortoise olfactory epithelium and olfactory bulb, 166
Reticulum, sarcoplasmic, fragmented, effect of calcium ionophores on, 735
Rod outer segments, isolated, dark ionic flux and effects of light in, 20

S

Sarcoplasmic reticulum, fragmented, effect of calcium ionophores on, 735
Sciatic nerve, frog, transport of axonal enzymes in surviving segments of, 388
Sensitivity, acetylcholine, distribution and extrajunctional density of acetylcholine receptors in rat diaphragm after denervation correlated with, 248
Serosal border of turtle intestine, alanine efflux across, 720
Serotonin and inhibition in *Limulus* lateral eye, 679
Shortening, effect of, on time-course of active state decay, 202
Skate photoreceptors, adaptation in, 698
—, *Raja*, mode of operation of ampullae of Lorenzini, 534
Skeletal muscle, treated with ethylene glycol, electrical properties and excitation-contraction coupling in, 221
Sodium and cesium ions, negative conductance caused by entry into potassium channels of squid axons, 588
— currents, photodynamic alteration of in lobster axons, 367
Sodium flux in *Necturus* proximal tubule undervoltage clamp, 181
— and potassium, effects of on ouabain binding by human erythrocytes, 609
— transport, active, in human erythrocytes, fluoride inhibition of, role of oxidized nicotin-amide adenine dinucleotide, 337
Spider venom, black widow, effect on lobster neuromuscular junctions, 650
Squid axons, negative conductance caused by entry of sodium and cesium ions into potassium channels of, 588
Starvation, phosphate, and the nonlinear dynamics of insect fibrillar flight muscle, 307

T

Thin lipid membranes, effect of surface charge on voltage-dependent conductance induced by monazomycin in, 285
— lipid membranes, voltage-dependent conductance induced by monazomycin in, 263
Time-course of active state decay, effect of shortening on, 202
Toad bladder responsiveness to neurohypophyseal hormones, osmotic regulation of, 665
Tubule, *Necturus* proximal, sodium flux in, under voltage clamp, 181
Turtle intestine, alanine efflux across serosal border of, 720

V

Ventricular muscle, mammalian, positive and negative inotropic effects of elevated extracellular potassium level on, 351

W

Waves, discrete, light adaptation of, in *Limulus* photoreceptor, 86

Statement of Ownership, Management, and Circulation required by Act of 23 October 1962; Section 4369, Title 39, United States Code: The Journal of General Physiology. Published monthly at Mount Royal and Guilford Avenues, Baltimore, Maryland 21202, for The Rockefeller University Press, New York 10021. Editor: Paul F. Cranefield, The Rockefeller University, New York 10021. Owned by The Rockefeller University, New York 10021, nonprofit corporation, authorized to mail at special rates. Purpose, function, and nonprofit status of the organization and the exempt status for Federal income tax purposes have not changed during the preceding 12 months. Following statistics represent 12 month average and number nearest to date of filing: copies printed for each issue, 2845; sales through dealers, street vendors, counter sales, 0; mail subscriptions 2287. Total paid circulation, 2354; free distribution 67; office use, left-over, unaccounted, spoiled, 491; net press run, 2845. Single issue nearest filing date June 1972. (Signed W. A. Bayless, Director).

519 J. M. RUSSELL and A. M. BROWN. Active transport of potassium by the giant neuron of the *Aplysia* abdominal ganglion

534 S. OBARA and M. V. L. BENNETT. Mode of operation of ampullae of Lorenzini of the skate, *Raja*

558 HOWARD CEDAR, ERIC R. KANDEL, and JAMES H. SCHWARTZ. Cyclic adenosine monophosphate in the nervous system of *Aplysia californica*. I. Increased synthesis in response to synaptic stimulation

570 HOWARD CEDAR and JAMES H. SCHWARTZ. Cyclic adenosine monophosphate in the nervous system of *Aplysia californica*. II. Effect of serotonin and dopamine

588 FRANCISCO BEZANILLA and CLAY M. ARMSTRONG. Negative conductance caused by entry of sodium and cesium ions into the potassium channels of squid axons

609 JERRY D. GARDNER and THOMAS P. CONLON. The effects of sodium and potassium on ouabain binding by human erythrocytes

NUMBER 6, DECEMBER, 1972

631 DANIEL L. ALKON and M. G. F. FUORTES. Responses of photoreceptors in *Hermissenda*

650 NOBUFUMI KAWAI, ALEXANDER MAURO, and HARRY GRUNDFEST. Effect of black widow spider venom on the lobster neuromuscular junctions

665 PATRICK EGGENA. Osmotic regulation of toad bladder responsiveness to neurohypophyseal hormones

679 A. R. ADOLPH and F. J. TUAN. Serotonin and inhibition in *Limulus* lateral eye

698 JOHN E. DOWLING and HARRIS RIPPS. Adaptation in skate photoreceptors

720 J. J. HAJJAR, R. N. KHURI, and PETER F. CURRAN. Alanine efflux across the serosal border of turtle intestine

735 ANTONIO SCARPA, JUDITH BALDASSARE, and GIUSEPPE INESI. The effect of calcium ionophores on fragmented sarcoplasmic reticulum

750 INDEX TO VOLUME 60
